

# DERMOLIFE ACADEMY

Professional Training Academy offering  
1 and 2 year study programs

# ABOUT THE ACADEMY

*EVERY PROFESSION HAS ITS OWN STORY*

Some are born from talent, others from dedication. But everyone needs a place where skills are developed and potential takes shape.

**Dermolife Academy** was created to prepare professionals in fields that are currently among the most in demand in the national and international job markets.

Our programs combine **theoretical knowledge with professional practice**, giving students the opportunity to gain real-world experience throughout their studies.

## WHY PROFESSIONAL TRAINING?

In recent years, the job market has increasingly sought people who can adapt and provide practical solutions.

At **Dermolife Academy**, every program is designed to provide you the knowledge and professional skills you need to become part of the job market.

## WHAT SETS US APART?

INTERNATIONAL CERTIFICATION

INDIVIDUAL TRAINING

FLEXIBLE SCHEDULES

PROFESSIONAL PRACTICE

MODERN FACILITIES

OPPORTUNITIES FOR PROFESSIONAL DEVELOPMENT EVEN AFTER  
COMPLETING YOUR STUDIES

# STUDY PROGRAMS

01

## ADVANCED AESTHETICS

The aesthetics industry is currently one of the fastest-growing sectors worldwide.

But success in this profession is built on more than passion alone. It requires knowledge, practical experience, and continuous professional development.

At **Dermolife Academy**, the **Advanced Aesthetics program** has been designed with exactly this goal in mind: *to train professionals who understand the science of the skin as well as the art of caring for it.*

Each module is designed to combine the knowledge and professional skills you need to become part of the job market with confidence.

To accommodate each student's goals and commitments, the programs are offered in several study formats:

### 2-YEAR PROGRAM

COMPREHENSIVE PROFESSIONAL TRAINING

### 1-YEAR PROGRAM

FOCUS ON THE CORE PROFESSIONAL COMPETENCIES

### 6-MONTH PROGRAM

IDEAL FOR THOSE WHO WISH TO DEVELOP NEW PROFESSIONAL SKILLS IN TWO AREAS OF ADVANCED AESTHETICS.

### 3-MONTH PROGRAM

A PRACTICAL AND FOCUSED PROGRAM IN ONE AREA OF AESTHETICS, DESIGNED TO PROVIDE ESSENTIAL KNOWLEDGE IN A SHORT PERIOD OF TIME.

During their studies, students learn about *skin anatomy and physiology, professional hygiene and safety, skin analysis, facial and body aesthetic treatments, the use of aesthetic technologies, professional treatment protocols, as well as client communication and care.*

***One of the program's strongest components is professional practice.***

Students have the opportunity to apply their knowledge in real working environments, developing practical skills, confidence, and hands-on experience that prepare them for the challenges of the profession.

This program is suitable both for those taking their first steps in the aesthetics industry and for professionals who wish to update their knowledge and specialize according to current market demands.

02

## **NUTRITION SPECIALIST FOR WELLNESS AND SPORTS**

The way we eat influences every aspect of our lives. From our daily energy levels and physical performance to concentration, recovery, and the prevention of many health-related problems, nutrition has become one of the key pillars of overall well-being.

Alongside the growing awareness of healthy lifestyles, there has also been an increasing demand for professionals who are able to guide, advise, and educate individuals about the importance of balanced nutrition.

**The 1-Year “Nutrition Specialist for Wellness and Sports” Program at Dermolife Academy** is designed to train professionals with comprehensive knowledge of the fundamentals of nutrition, human physiology, and the impact of nutrition on health, well-being, and physical performance.

The learning process is designed to be practical and focused on real-life situations. Through case studies, professional exercises, and discussions with lecturers in the field, students develop not only theoretical knowledge but also the ability to apply it in practice with responsibility and professionalism.

THIS PROGRAM IS AN IDEAL CHOICE FOR YOUNG PEOPLE SEEKING TO BUILD A CAREER IN NUTRITION AND WELLNESS, FITNESS AND WELLNESS PROFESSIONALS LOOKING TO EXPAND THEIR COMPETENCIES, AND ANYONE WHO BELIEVES THAT NUTRITION EDUCATION IS A VALUABLE INVESTMENT IN BOTH INDIVIDUALS AND SOCIETY.

03

## BUSINESS MANAGEMENT

Every business starts with an idea, but only well-managed ideas can grow, develop, and remain competitive.

In an ever-changing market, having a good product or service is not enough; you need to know *how to make decisions, manage resources, lead people, and build a strategy that stands the test of time.*

**The 6-Month Business Management Program at Dermolife Academy** is designed to equip students with the knowledge and practical skills required in the world of entrepreneurship and modern business administration. The program is intended not only for those who aspire to start their own business, but also for professionals who wish to advance their careers, take on leadership roles, or gain a deeper understanding of how a business operates.

During the program, students are introduced to the fundamental principles of management, work process organization, strategic planning, marketing, customer communication, human resource management, and the key elements of business finance. Each topic is approached from a practical perspective, supported by concrete examples and real-life situations encountered in the business world.

This program is ideal for young entrepreneurs, small and medium sized business owners and managers, professionals aiming for managerial positions, and anyone who wants to gain a deeper understanding of the mechanisms that contribute to business success.

04

## GRAPHIC DESIGN

GRAPHIC DESIGN IS NO LONGER  
SIMPLY A CREATIVE PROFESSION.

It is one of the most in-demand skills among businesses, marketing agencies, technology companies, and ventures across every industry. Every organization needs an identity, and every identity begins with design.

The **6-Month** Graphic Design Program at Dermolife Academy is designed to train professionals who can communicate ideas through visual content, combining creativity with technical knowledge and industry standards.

During the program, students learn *to create visual materials that are not only aesthetically appealing, but also functional, strategic, and results-oriented.*

The learning process begins with the fundamentals of graphic design, color theory, composition, and the development of visual identities. Students then develop skills in using professional design software, creating logos, promotional materials, social media content, print materials, and visual communication.

At the end of their studies, each student develops a professional portfolio — one of the most important tools for entering the job market. This portfolio reflects the development of their skills, creative style, and the projects completed throughout the program, and becomes one of their strongest presentation tools when approaching agencies, companies, or clients.

05

## WEB DESIGN

THE INTERNET HAS CHANGED THE WAY PEOPLE SHOP, FIND INFORMATION, COMMUNICATE, AND MAKE CHOICES.

The growth of online businesses has created an increasing demand for professionals who know how to build modern, user-friendly websites that are aligned with user behavior and needs.

Web designers work in marketing agencies, companies across different industries, or as independent professionals.

The **6-month Web Design program** at Dermolife Academy is designed to train professionals who want to enter the digital world with practical knowledge and a strong professional foundation.

During the program, students are introduced to the complete process of creating a website, from the initial concept and structural organization to the development of a functional project. By combining theory with practical training, students learn how to create websites that are not only visually appealing, but also user-friendly and aligned with the demands of today's market.

The program is suitable for anyone looking to develop professionally in technology and design, as well as for professionals seeking to acquire a new skill in an industry that continues to grow every day.

06

## CHILDCARE PROFESSIONAL

CARING FOR A CHILD MEANS BEING PART OF ONE OF THE MOST IMPORTANT STAGES OF THEIR LIFE.

**It means understanding their needs, creating a safe environment, and knowing when a child needs care, attention, or simply someone to listen to them.**

Working as a childcare professional requires more than simply loving children. It requires training, patience, responsibility, and knowledge of a child's physical, emotional, and social development.

Upon completion of the program, students are prepared to work as childcare professionals in family settings, kindergartens, childcare centers, and other environments where professional childcare is required.

# ELDERLY CAREGIVER

CARING FOR AN ELDERLY PERSON REQUIRES MUCH MORE THAN SIMPLY THE DESIRE TO HELP.

**The growing elderly population and the increasing need for specialized care services have created greater demand for trained professionals in this field.**

**The 6-Month “Elderly Caregiver” Program at Dermolife Academy** is designed to equip students with the knowledge and practical skills required for this profession. Throughout the program, students learn how to provide structured care while understanding not only the basic needs of older adults, but also the importance of communication, respect, and emotional support.

This training prepares students for employment opportunities in private home care, residential care centers for older adults, institutions and organizations providing social services, private care facilities, and other related settings.

The knowledge gained throughout the program can also provide a valuable foundation for those who wish to work in the social care sector, further develop their professional competencies, or establish an independent service in this field.

## Throughout this training, students gain knowledge of:

- The aging process and the physical, psychological, and social changes associated with later life.
- The organization of daily care, including personal hygiene, nutrition, mobility assistance, and basic activities of daily living.
- Professional communication with older adults and their families, with an understanding of the importance of empathy, respect, and emotional support.
- Creating a safe environment to help prevent everyday risks and accidents.
- Caring for individuals with special needs and adapting services according to their condition and individual requirements.
- Organizing daily routines that help maintain the well-being and independence of older adults.

# PYTHON PROGRAMMING

1-YEAR PROGRAM

A PRACTICE-ORIENTED PROGRAM THAT INTRODUCES YOU TO PROGRAMMING LOGIC, PYTHON, AND THE FUNDAMENTALS OF SOFTWARE DEVELOPMENT THROUGH HANDS-ON PROJECTS.

## What will you learn?

- Python Programming
- Programming Fundamentals
- HTML & CSS
- JavaScript
- Django
- Flask
- SQL & ORM
- REST APIs
- Git & GitHub
- Web Development
- Web Deployment
- HTTPS/SS

### At the end of the program:

You will be able to **write code in Python, develop applications, work with databases and APIs**, and build your first portfolio with practical projects.

### Career:

The program prepares you for employment opportunities in **software companies, startups, digital agencies, and companies developing web applications, APIs**, and integrated solutions, as well as for freelance and remote projects.

### Participation:

- 16+ years old
- Compulsory education completed

### Format:

Theory + Practice

### Qualification:

Internationally recognized certificate.

# DATA SCIENCE

1-YEAR PROGRAM

A PRACTICE-ORIENTED PROGRAM THAT INTRODUCES YOU TO PYTHON, DATA ANALYSIS AND PROCESSING, DATA VISUALIZATION, AND THE FUNDAMENTALS OF MACHINE LEARNING, PREPARING YOU TO WORK WITH DATA OF DIFFERENT SIZES AND FROM DIVERSE SOURCES.

## What will you learn?

• Python Programming

• Data Analysis

• Pandas

• NumPy

• Data Visualization

• Matplotlib & Seaborn

• Machine Learning & IA

• PySpark

• Dask

• Flask & FastAPI

• Big Data

• Model Deployment

• AWS & Heroku

### • At the end of the program:

You will be able to **collect, clean, and analyze data, create visualizations, apply Machine Learning models, and integrate and deploy models in applications through APIs**. The program also includes a final hands-on project to build your portfolio.

### • Career:

The program prepares you for employment opportunities in companies working with **data analysis, Machine Learning, and data-driven solutions**, across sectors such as finance, healthcare, technology, and marketing, as well as for freelance and remote projects.

### • Participation:

- 16+ years old
- Compulsory education completed

### • Format:

Theory + Practice + Projects

### • Qualification:

Internationally recognized certificate.

# COMPUTER NETWORKING SPECIALIST

1-YEAR PROGRAM

A PRACTICE-ORIENTED PROGRAM THAT INTRODUCES YOU TO PYTHON, DATA ANALYSIS AND PROCESSING, DATA VISUALIZATION, AND THE FUNDAMENTALS OF MACHINE LEARNING, PREPARING YOU TO WORK WITH DATA OF DIFFERENT SIZES AND FROM DIVERSE SOURCES.

## What will you learn?

- Computer Networking
- TCP/IP & IP Addressing
- LAN & WAN
- Routers & Switches
- MikroTik
- VLAN & VPN
- Subnetting
- Windows Server
- Virtualization
- Network Administration
- VoIP
- Network Security
- Network Troubleshooting

### At the end of the program:

You will be able to **install and configure network devices, build and administer LAN networks, work with IP addressing and subnetting, VLANs and VPNs, configure Windows Server, and identify and troubleshoot network issues.** The program also includes a practical project focused on network security and protection.

### Career:

The program prepares you for employment opportunities in **businesses, institutions, and organizations that use or manage network infrastructure, as well as in companies providing IT services and network maintenance.** With experience and further qualifications, you can progress into more advanced roles in network administration and management.

### Participation:

- 18+ years old
- Secondary education completed
- Basic computer skills

### Format:

Theory + Practice + Projects

### Qualification:

Internationally recognized certificate.

11

## TOURISM MANAGER

1-YEAR PROGRAM

A PRACTICAL PROGRAM DESIGNED TO HELP YOU UNDERSTAND HOW THE TOURISM INDUSTRY WORKS FROM THE INSIDE. FROM ORGANIZING TRIPS AND CREATING TRAVEL PACKAGES TO MANAGING HOTELS, CUSTOMERS, SALES, AND TEAMS.

### What will you learn?

#### • TRAVEL SERVICES

Organization and sales of travel services.

#### • TOUR OPERATIONS
